

- Best suitable for reaping and collection of standing stubbles. Straw collected into trolley is used as animal feed.
- Heavy duty structure and gear box for better performance.
- Strong chassis for extra durability and negligible vibrations.
- Adjustable threshing basket.

STRAW REAPER

WORLD'S NO. 1
HEAVY DUTY RANGE

WALK AROUND STRAW REAPER

ABOUT

Straw reaper is a tractor operated equipment that cuts, threshes, cleans & loads the bruised straw into the trolley attached in one operation. Wheat stubbles left in the field after combine harvesting are cut by oscillating set of blades, while the rotating reel pushes them towards the rotating auger. Auger feeds the stubbles into the threshing unit which bruising the stubble in smaller pieces.
